

NOT JUST SLIMMER— *HEALTHIER, TOO*

**FDA-CLEARED. CLINICALLY PROVEN.
ZERO PAIN. NO DOWNTIME.**

WHAT MAKES ZERONA Z6 DIFFERENT?

Zerona Z6 is the **only** non-invasive body contouring device that **does NOT kill fat cells**. Instead, it uses **low-level laser therapy (3LT®)** to emulsify and drain fat cells safely through the lymphatic system.

Unlike other fat loss methods that kill fat cells (CoolSculpting, liposuction), **Zerona protects your body's largest endocrine organ**—your fat!

Yes, fat cells are crucial for:

- Hormone production
- Immune function
- Reproductive health
- Glucose & lipid metabolism

HOW IT WORKS

- ✓ After 4 minutes: 80% disruption of adipose (fat) cell membranes
- ✓ After 6 minutes: 100% fat content released into extracellular space
- ✓ Pores remain open for 48–72 hours for optimal fat drainage
- ✓ Fat is metabolized and released through normal excretion

ZERONA IS FDA-CLEARED FOR

✓ **Waist** ✓ **Hips** ✓ **Thighs** ✓ **Upper Abdomen** ✓ **Upper Arms**

LET'S TALK NUMBERS

Clinical trials show **potential loss of 9 inches** over the course of 6 treatments (2 treatments/week for 3 weeks)

4 inches of fat ≈ 5 lbs of fat ≈ 12,600 calories

To lose that much naturally, you'd need to: 🏊♀️ Swim for 40 hours, 🎾 Play tennis for 21 hours, or 🏃 Jog for 17 hours...or simply relax under the Zerona Z6 laser!

✓ NO SHOTS ✓ NO SHAKES ✓ NO SURGERY
